

## FLORES KOMODO TOUR 2020

### 2N/3D EXPLORE KOMODO NATIONAL PARK

TYPE: PRIVATE TOUR

MIN BOOKING: 2 PEOPLE

MEETING POINT – TIME: LABUAN BAJO AIRPORT (flight arrival before 09.00) or HOTEL (at 08.00)

ENDING POINT – TIME: : LABUAN BAJO AIRPORT (flight departure after 16.30) or HOTEL (around 17.00)

#### DAY 1

**KELOR ISLAND** is small island with white sandy beach and here you can do trekking to see the view around the island, swimming and relax on the beach.

**RINCA ISLAND** is a rough and tumble little place full of wildlife, poisonous snakes, and of course, the Komodo dragon. We will do 2 hours afternoon trekking to explore the island and see the wild Komodo Dragons

**KOABA ISLAND (Flying Fox)**, which is also known as Kalong Island (Fruit Bat Island), is a low-lying circular island measuring 500 metres across and appearing to comprise a core of taller trees surrounded by dense mangrove. We will stay overnight on board on this island.

#### DAY 2

**PADAR ISLAND**, it offers spectacular view from the summit, where you can enjoy breathtaking view of the blue ocean and white sandy beach below. **NOTE : we will visit padar if the weather & sea condition is good n safe for standard wooden boat) (as we used). if not, we will skip padar island n go straight to pink beach n komodo. in this case you will do long trekking on komodo (3hrs) and you will spend second time on pink beach for seeing sunset.**

**PINK BEACH KOMODO** is located in Komodo National Park with pink color of sand, serenity ambiance, panoramic view and beautiful underwater for snorkeling.

**KOMODO ISLAND** is particularly notable as the habitat of the Komodo dragon, the largest lizard on Earth. The island is made up of rusty-red volcanic hills, savannah and forests. We will do 2 hours afternoon trekking to explore the island and see the wild Komodo Dragons

**KALONG KOMODO** a bay in Komodo National Park with calm sea. We will stay overnight on board around the bay.

#### DAY 3

**TAKAT MAKASSAR** offers beautiful beach and snorkeling spots. It features white and calm water. The island is also called the emerged land. Once you arrive at the island, you will be amazed by its beauty.

**MANTA POINT** Swimming or snorkeling while touching Manta Ray does give a sensation of its own

**KANAWA ISLAND**, located approximately 15 kilometers from Labuan Bajo at the border of Komodo National Park, is considered to be one of Southeast Asia's most idyllic islands, fully surrounded by a spectacular reef with thousands of fish species, turtles, corals, reef sharks, and mantas. A small hill in the middle of this untouched island guarantees a spectacular view over the national park and to Labuan Bajo Bay.

PRICE: IDR 4.850.000/person
